Case Study: Integrated Business Planning at ROSEN Group

The ROSEN Group, a global leader in advanced technical solutions, has partnered with smartPM.solutions to implement a fully integrated Enterprise Planning (xP&A) system across its global operations. By eliminating time-consuming Excel-based data consolidation and improving data quality, ROSEN now benefits from:

1. Seamless integration of all planning components
2. Maximum decision-making confidence
3. High user acceptance and intuitive operation
4. Clear management dashboards and excellent data visualization
5. Fast, continuous planning processes and dynamic rolling forecasts

Client feedback on the project

"In the past, we were limited by Excel in terms of capabilities, but now we plan flexibly and quickly. The new planning system integrates all planning components and is being rolled out globally across our branches. What we appreciate most is the ability to plan continuously and generate flexible forecasts. From the start, we had a strong feeling that the implementation and ongoing support with smartPM would be successful, and it has proven to be the right choice."

Daniel Olthaus, Head of Financial Analysis, ROSEN Group

ROSEN GROUP – Project Implementation

After evaluating five providers, the ROSEN Group unanimously chose smartPM.solutions as their trusted partner for implementing Integrated Corporate Planning.

The project followed a structured 5-step plan, starting with the implementation of Capacity and Resource Management and Cost Center Planning.

Subsequent phases included the rollout of Financial Reporting, Cash Forecasting, Investment, Sales, and Personnel Planning, Budgeting and other critical modules. Multiple testing phases ensured high-quality results – a step-by-step success model aligned with a long-term strategic vision.

What we do...

We Think Controlling
